Hoos THAT WELD HOUS-EAST THENSESSED TARRES me LEAD.-Mr. J. G. CARMENAN, of Roane comty, killed some hogs on the 13th of December chich will do to bear on. Nine that were sever teen months and eleven days old weighed respec t'v.ly, 200, 268, 270, 286, 298, 364, 364, 376 and and 398 pounds -total, 2,884 pounds, being an average of a fraction over 220 pounds. At the same time he killed four hogs nineteen months old which weighed respectively, 392, 402, 418 and 426 ds total, 1,638 pounds, being an average of refunds. Total weight of the thirteen hogs, pounds, using an average of nearly 518 pounds. and adds: "We have got as good a breed of r Eenst Tennessee as you will find in the

mess or Nox-Intercourse...-The Atlanta (Ga.) acrde) received a visit from a traveling agent New York furnishing house a few days since. Namusus, W. T. Avent, James Quantes, and J. H. and that paper says: "He informed us that he had Too a for just favors. traveled through portions of Tennessee, Alabama and Georgia, for the purpose of receiving orders for his house, and that he had not received more than twenty orders in his whole route-scarcely sufficient to pay his traveling expenses. He was on his way home. Hundreds of Northern drummers are meet-

ing with similar success this season." The New York correspondent of the Mobile Regisfer states that Mr. W. A Townsann, book publisher of New York, who owns the copy right of Coorne's novels, will come South and establish himself in the publishing business as soon as any one State secedes.

A Housistic Appare.-The Bowling Green (Ky.) Gasette of the 11th says: "On the western border of our county, near the Butler line, on last Thursday, the house of Jno. Busoner was burned down, and he the only occupant was burned up with it. His nephew arrived before the house was entirely consumed, and saw his uncle lying in the bed, evidently unconscious of his condition. The timber from above Had begun to fall in, making it too dangerous to attempt the rescue of the old man. From the fact he bould not be aroused, and other circumstances, it is supposed he met his death by foul means before the firing of the building. He had received some money in coin that day and the day previous, none of which, or its relies could be found, by which fact the above suspicion is strengthened." City Council.

tween Walnut & Fine. ELZO INCIPNATE, OHTO.

Fever and Ague, from which sumkind suffer over a large part of the globe, is the consequence of a messaged action in the groom, induced by the prisoness misson of vegetable decay. This exhalation is avolved by the action of solar heat on wet stoll, and since with the watery variet from it. While the sum is below the horizon this vapor llangers near the earth's earliers, and the virus is taken with it through the bungs into the bined. There is earlies as an feritation poison on the internal viscers and excepting dryants of the body. The liver becomes target and falls to secrets not only this virus, but also the high from the blood. Both the virus and the bile accumulation in the circulation, and processe violent constitutional disorder. The spices, the kidners, and the stomach symmatrice with the liver, and become disordered about the life is an attempt. Finally, the instinct of our organism, as if it is a attempt to expect the noxious inflation, concentrates the whole blood of the body in the internal correction to force them to cast if out. The blood leaves the surface, and rushes to the central organs with congestive violance. This is the CAURAL But in this effort it falls. Then the Favors follows, in which the blood leaves the control organs and rushes to the surface, as if in another effort to expel the leftsting paison through that other great exercise.—the skin. In this also it fulls, and the sys-am aliandous the attempt exhausted, waiting for the

recovery of strength to repeat the hopeism effort another day. These are the fits of paracyums of Parant And Acce. Such conditional disorder will of course sits dermine the health of in in not removed.

We have labored to find, and have found, in antidots, Ayer's Ague Cure, which neutralizes this malarious poison in the blood, and stimulates the lover to expel it from the body. As it should, so it these save this affairting disorder with perfect certainty. And it does more, or rather does what is of more savice to those subject to this lathering. If taker in season is expels it from the system as it is absent and the lather the result and the lover those through the free from the absorced, and thus keeps those who see it free from the attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from, the greet variety of effections which are induced by this malignant influence, such as Remittent Fever, Calli Faver, Dunis, or Masked Agus, Periodical of the Splann, Hysteries, Colin, Paralysis, and Painfe Affections of the Stomach and Bowels, all of which when arising from this same, will be fromd to assume more or less the intermittent type. This "Annu Coun" removes the cause of these decongruents, and cures the disease.

This it accomplishes by stimulating the excentories to expel the virus from the system; and these organi-by degrees become hebited to do this their office of these Time may accomplish the same end, but often his is not long enough, or is excriticed in the attempt, while this "Agun Cuma" does it at upon, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of discuss which are caused by the minimization fraction, than any other which as been discovered; and it has sell another important which are the property of the whole which is the property of the sell and the sure of the whole selection.
